Profile

With nearly seven years of experience in mobile application development, web development, and both frontend and backend (Java-based API) development, I bring strong technical expertise to the table. I excel in software system debugging and troubleshooting, ensuring smooth and efficient performance. Passionate about continuous learning, I stay updated with industry trends to deliver innovative solutions. I am confident that my skills, knowledge, and hands-on experience will contribute significantly to your company's ongoing success.

Professional Experience

Ooredoo Myanmar | March 2025 – Present

- Developed **Ooredoo's Donation Website** (for earthquake relief) using **WordPress on Bluehost**, ensuring a seamless user experience for donors.
- Currently leading the development of a **custom Payment Panel** (web that use vuejs) to integrate **all major payment gateways in Myanmar**, enhancing transaction flexibility and efficiency.

Angular/Java Developer

Myanmar Software Integrated Solution | Sep 2024 – Feb 2025

- Contributed to the development of **MIFOS Microfinance** for **KBX Microfinance**, a financial management platform.
- Built frontend components using **AngularJS** and developed backend services with **Java Spring Boot** in a **multi-module project architecture**.
- Collaborated with cross-functional teams to ensure seamless integration and system performance.

Senior Frontend Developer

Myanmar Media Linkage | Nov 2023 – Mar 2024

- Led frontend development for **YOURS Music** (a Spotify-like web & app platform), enabling music/video streaming, uploads, and social sharing.
- Built core features using **Next.js, React, TypeScript (TSX), Tailwind CSS, and PrimeReact** for a responsive, high-performance UI.
- Developed a **karaoke function** with synchronized lyrics and integrated **Facebook/MyDay sharing** to enhance user engagement.
- Optimized performance and ensured seamless playback for audio/video content.

Senior Front End Developer

BLUE STONE SOLUTION | Jan 2023 - Sep 2023

XBITU Crypto Exchange Platform

- Led frontend development for **XBITU Crypto Exchange** including customer mobile app and admin panel using **Ionic, Angular 14, TypeScript, and Bootstrap/SCSS**
- Implemented robust security measures including:
- Developed core cryptocurrency exchange features:
- Successfully published apps to **Play Store, App Store, and Test Flight**
- Mentored and collaborated with 1 other frontend developer

Technical Environment:

Angular 14, TypeScript, Ionic, JavaScript, Bootstrap, SCSS, App Security, Cryptocurrency APIs

Senior Front End Developer

BLUE STONE SOLUTION | 2018 - Dec 2021

KBZMS Insurance App

- Developed customer mobile application for KBZ Insurance using **Ionic, Angular 11, TypeScript, Bootstrap, and SCSS**
- Implemented key features including:
- Conducted functional and end-to-end testing
- Provided production support and bug resolution
- Successfully published to **Play Store, App Store, and Test Flight**
- Collaborated in a **5-member development team**

BNK Microfinance Insurance App

- Built customer and agent mobile applications using **Ionic, Angular 8**
- Developed bank integration features and audit functionality
- Managed app deployment across **iOS and Android platforms**

Mid Mobile App Developer

Coca-Cola Invoice Delivery Management

- Developed mobile app with **OCR technology** (Cloud Mersive) for invoice scanning and promotions
- Implemented both **frontend (Ionic/Angular 8)** and **backend (Java Spring Boot)**
- Created RESTful APIs for mobile integration
- Handled full deployment to app stores
- Provided ongoing client support and bug fixes

MOOVE Promotion App

- Built shopping rewards app with promotion/point system
- Developed using **Ionic, Angular 8, TypeScript**
- Collaborated in a **2-member mobile team**
- Managed complete UI/functionality implementation.

iLinea Tendering App

- Developed mobile and web platform for construction tendering
- Implemented using **Ionic, Angular 8, Bootstrap**
- Worked in a **2-member mobile team**
- Handled full deployment lifecycle

Junior Front End Developer

Meroventure Solution | May 2017 - Jan 2018

- Developed cross-platform mobile applications using **Ionic 2, Angular, TypeScript, HTML5, CSS3, and Bootstrap**
 - Contributed to multiple projects including:
 - Collaborated with design and backend teams to implement responsive UIs
 - Gained foundational experience in hybrid mobile development and Angular architecture
- Key Technologies:** Ionic 2, Angular, TypeScript, HTML5, CSS3, Bootstrap, Mobile UI/UX

Skills

Programming Languages & Frameworks

- Java, J2EE, Spring Boot
- JavaScript, TypeScript
- Angular , Ionic , React , Nextjs

Frontend Development

- Angular, RxJS
- Vue.js, Nuxt.js
- Ionic
- Next.js
- HTML, CSS

Backend & ORM

- JPA, Hibernate
- REST API Development

Databases

- PostgreSQL, MySQL

Version Control & CI/CD

- Git, SVN
- Jenkins

Project Management Tools

- Jira
- Odo

Diagramming Tools

- Drawio

Education

Data Analyzing and Visualizing with Power BI

<https://www.youth.edu.mm/>

Professional Diploma in Software Engineering

<https://ictresearch.edu.mm/information-and-communication-technology-training-institute-iccti/>

Bachelor of Engineering (Electronics & Communications)

Government of Thanlyin Technological University
